2. Select Creo for University Students
3. Fill out Registration details – any email will work
4. Click Install Creo v7 – the pdf below appears.
5. Follow the instructions.

ptc academic

PTC Creo 7.0 - Student Edition - Quick Installation Guide

1. Download the **PTC Creo 7.0** zip file:
 - www.ptc.com/appserver/auth/it/esd/academicFree.jsp
 - o If necessary, enter your PTC username (your email address) and password, and then click **LOG IN**.
 - o [Create an account at www.ptc.com/appserver/common/account/ptcacademic.jsp](http://www.ptc.com/appserver/common/account/ptcacademic.jsp)
 - o Accept the Export Agreement and then click **Continue**.
2. **If this is the first time you install Creo please jump to the next step.** If you had older Creo editions installed on your computer, please go to **C:\ProgramData\PTC\Licensing** and delete all the older licenses (you can also move them to another folder until the Creo 7.0 is installed). After the folder is empty you can proceed with the next step.
*Please note that **ProgramData** is a hidden folder. The easy way to access this location is to simply copy **C:\ProgramData\PTC\Licensing** and paste it in the Windows explorer.*

3. **Unzip** the downloaded zip file (MED-100WIN-CD-440_###_Win64.zip):
represents the build code of Creo you downloaded. The actual number will vary as additional Creo builds are released.
 - o Right-click the downloaded zip file, select **Extract All** and then select a location where the files will be unzipped to. Select a location you can easily access, such as your Desktop.
 - o Use Windows Explorer to open the resulting **MED-100WIN-CD-440_M###_Win64** folder.
This folder can be copied to a shared drive, DVD or thumb drive and then be used to install the software on other computers.
 - o Temporarily **disable all firewall, anti-virus and anti-spyware applications**.
 - o Run **setup.exe**. Do **NOT** use setup-schools.exe, this will cause errors.
 - o Right-click **setup.exe** and select **Run as administrator** from the pop-up menu.
