

Student Download instructions for:

# OrCAD

## Notes

---

- This is a tricky download and install process, with the licence locked to your computer's MAC address so can't be changed once issued.

## Instructions

---

1. Go to: <https://www.parallel-systems.co.uk/student/>
2. Scroll to bottom of page
3. Download and complete the PDF.

Student OrCAD Request Page

REQUEST YOUR 12 MONTH LICENSE FILE

Please **download the PDF** and complete all the information.

The correct product (PO250E) is already pre-selected for you, all you need to do is complete the rest of the form

If you don't have access to a scanner please complete the signature part with your name or initials

While you wait you can use the [free tutorial](#)

Email: [sales@parallel-systems.co.uk](mailto:sales@parallel-systems.co.uk)

(YOU MUST EMAIL THE FORM USING YOUR STUDENT EMAIL ADDRESS, e.g. ends ".ac.uk")

**MAC Address instructions:**  
Please go to:

**Start (Windows Icon)>Windows System>Command Prompt**

type: "getmac" then press enter.

We need to know the **active TCP/IP adaptor Physical Address**.

Example output with device specific details removed:

Physical Address	Transport Name
xx-xx-xx-xx-xx-xx	Media disconnected
<b>yy-yy-yy-yy-yy-yy</b>	<b>DeviceTcpip_{XXXXXXXX-XXXX-XXXX-XXXXXXXX}</b>
zz-zz-zz-zz-zz-zz	Media disconnected

The **Physical Address** listed for the "DeviceTcpip\_" Transport Name is the required address for the form.

Once your license is issued there is no way to correct it if you gave the wrong MAC address.

So **if you are unsure please send over a screenshot of the getmac page** and we can help you choose the correct one

Your license file will then be issued to you after your details have been checked and processed.

It can take up to 14 days to get your license depending on the queue.

4. Email your completed form and mac address details to the vendor who'll issue a licence within 14 days.
5. Download / Install as per the instructions they will send you.
