

## Games Desktop

### Instructions

**Please Note:** All apps are distributed via AppsAnywhere so the first time they are opened, it may take some time. When each application is opened subsequently, it should take less time, depending on the complexity of the app.

### Accessing AppsAnywhere

Step	Instructions	Screenshot
1	Log into the Games desktop.	<p>Instructions on how to access the Windows Virtual Desktop client can be found in <a href="#">Appendix 1</a>.</p> <p>On the remote desktop client, choose the 'Games' desktop.</p>  A screenshot of a Windows 10 desktop workspace selection menu. The menu is titled "Windows 10 Games Desktop Workspace" and is expanded to show a single option: "Games Desktop" with a laptop icon.
2	Open the Start Menu.	
3	Click the 'AppsAnywhere' shortcut.	 A screenshot of a Windows Start menu. The user's name "SHU" is visible at the top. A blue tile with a red cloud icon and the text "AppsAnywhere" is highlighted.
4	The AppsAnywhere site will be opened in Internet Explorer.	
5	A green message should be displayed at the top of the screen when you have been validated.	
6	Use the search bar at the top right hand side of the web page and enter the term 'Games'.	 A screenshot of a search bar on a website. The text "games" is entered into the search field, and a magnifying glass icon is visible to the left.
7	The results will be displayed.	<p>Games desktop specific apps are:</p> <ul style="list-style-type: none"><li>• 3D Coat (See page 2 for specific guidance)</li><li>• 3D Studio Max</li><li>• Bitmap2Material</li><li>• Clo3d</li><li>• Marmoset Toolbag</li><li>• Marvelous Designer</li><li>• Zbrush</li><li>• Substance studio (Painter, Alchemist, Designer)</li></ul>
8	To launch an application, mouse over the appropriate tile and click 'Launch'.	 A screenshot of a Windows application tile for "Marvelous Designer". The tile features a yellow "M" icon, the text "Marvelous Designer via Locally Deployed (Win)", a green "Launch" button, and a grey "More Info" button.

## Application-specific Guidance

Application Name	Guidance
3D Coat	<p>Using 3D Coat requires that you first load Photoshop using AppsAnywhere.</p> <ul style="list-style-type: none"><li>• Follow the instructions above to access AppsAnywhere but instead of searching for 'Games', search for 'Photoshop'.</li><li>• Open Photoshop CC 2018</li></ul>  <p><b>Important – This is a large application so it will take a while to create the page file on the VM. Subsequent loads will be much faster.</b></p> <p>When Photoshop has loaded, feel free to close it.</p> <p>Go back to AppsAnywhere, search for Games and click 'WVD' on the 3D Coat tile.</p>  <p>Next, click on 'Load app and dependencies' in order to load 3D Coat.</p>
Marmoset Toolbag	<p>AppsAnywhere search terms (Use either): Games, Marmoset Toolbag</p> <p>AppsAnywhere Tile:</p>

AppsAnywhere search term: Substance painter

**World Machine**

AppsAnywhere Tile:

AppsAnywhere search term: World Machine

## Appendix 1 - Accessing Remote Desktop client.

These instructions are intended for use on a SHU Windows 10 managed desktop computer.

There is a pre-requisite that you will need to be connected to the SHU VPN in order to access this client.

Step	Description
1	<p>Open the Software Center.</p> <p>Start menu &gt; Microsoft System Center &gt; Software Center</p> 
2	Click 'Windows Desktop Client'
3	<p>On the next screen, click 'Install'</p> 
4	Following completion of the installation, the remote desktop client can be found in the start menu.

### Remote Desktop via HTML5

If there are any issues installing the desktop client, a less complete client is available at this URL.

<https://rdweb.wvd.microsoft.com/arm/webclient/index.html>

### Installing on personal devices

There is a wide variety of clients which can be used on personal devices.

If you would like to install, please visit the below link for download links and install instructions.

<https://docs.microsoft.com/en-us/windows-server/remote/remote-desktop-services/clients/remote-desktop-clients>

### Logging into the Windows Virtual Desktop

Open the client, at which point you will be prompted to subscribe to a workspace. Press 'Subscribe with URL' and enter

<https://rdweb.wvd.microsoft.com/api/arm/feeddiscovery>.

Press 'Ok' on the next screen.

When the feed has been downloaded, you will see a screen similar to this:

Double-click the desktop you wish to access.

When prompted to log in, use your SHU network identity in the format [username@hallam.shu.ac.uk](mailto:username@hallam.shu.ac.uk), with the same password as you would use to log into your SHU computer.

This will apply to both the desktop and web clients.
