

Connecting to SHU WIFI for Mac

1. Click the Airport icon at the top of the screen or enter the Airport menu

2. Choose **Join other network**

3. Enter the following details in the dialogue box if prompted:

A screenshot of the macOS 'Find and join a Wi-Fi network' dialog box. The fields are filled with: Network Name: SHU-USS, Security: WPA2 Enterprise, Username: b1235678, and Password: a series of dots. The 'Remember this network' checkbox is checked.

Network Name - **SHU-USS** (ensure this is entered in upper-case)

Security - **WPA 2 Enterprise**

Username - your SHU username

Password - Your SHU password

Click **Join**

4. When prompted to verify certificate, press **Continue**
