

ICE Club Case Study

Noelle Vaz

Msc Advancing Physiotherapy

Tell us about your experience as part of ICE Club

I have been involved with a variety of opportunities through ICE Club for example I was part of Student Crew, I have done some immigration work and I have been a Research Mentor. I helped to facilitate the Manchester Airport pick-up service which improved my confidence of approaching new people and developed my communication skills.

What are the benefits of joining?

ICE Club gives you the opportunity to work in a variety of roles that enable you to develop a wide range of skills such as team skills and communication skills.

How has ICE Club contributed to your professional development?

ICE Club has developed my confidence because I feel that I have become more employable. I have gained transferable skills that can be applied to future job roles. For example working as Student Crew has improved my team skills because the role involved supporting team mates and delegating tasks.

What are your career aspirations for the future?

I hope to work as a Physiotherapist in the future. Being part of ICE Club has made me realise that I like to be involved with a variety of projects, enhancing my ability to manage conflicting deadlines which has improved my time management skills. My confidence has grown which has meant that I am able to communicate with people more effectively, therefore my team skills have improved. This will help me to achieve success with my future career aspirations.
